SOFTWARE DEVELOPMENT AGREEMENT

Project: Sadza Connect Web Platform

This Agreement is made on this **23rd** day of **September** 20**26** between:

The Client:

Africdominion Group (Pvt) Ltd

Represented by: Tinowonga Ngozi

Gweru, Zimbabwe

(Hereinafter referred to as "the Client")

The Developer:

Ugwoke Levi

Kaduna State, Nigeria

(Hereinafter referred to as "the Developer")

---

1. PURPOSE OF AGREEMENT

This Agreement defines the terms under which the Developer will design and build the "Sadza Connect" web platform (the "Project") for the Client, and the compensation to be paid for that work. This is a fixed-scope, fixed-price engagement tied to project milestones.

2. PROJECT SCOPE

Sadza Connect is a website (with a mobile-friendly browser experience) that combines a business directory, an online marketplace, a jobs board, and a tourism guide for users in Zimbabwe. The Developer will build the following, as detailed in the project specification document already shared between the parties ("Schedule A"):

- Search & filter system (location, category, price, rating; list and map views)
- Individual business pages (photos, description, hours, map, reviews, WhatsApp/contact links)
- Trust & safety features (verified badges, star ratings, written reviews, reporting)
- Marketplace module for listing, browsing, and messaging sellers about products
- Jobs board for posting, browsing, and applying to job listings
- Business onboarding flow with document upload and admin approval
- Personal user dashboard (profile, saved businesses, messages, reviews, orders, applications)
- Business owner control panel (page views, product management, reviews, customers, invoices, advertising)
- Admin panel for approvals, moderation, user management, reporting, and payment administration
- Contact and notifications handled via WhatsApp links (no in-app messaging/alerts system)
- Map integration via OpenStreetMap
- Payment support in both USD and ZWL
- Bill payments module for utility bills (e.g. electricity, DSTV, water)

Out of scope for this Agreement (may be scoped separately later): a native mobile app, an AI search/chat assistant, and automatic text/email/push notifications.

3. CONTRACT DURATION

Start Date: 23rd September 2026

Target Completion Date: On or before 31st December 2026

This Agreement automatically expires on the Target Completion Date once the Project has been delivered and accepted, unless extended in writing by mutual agreement of both parties.

4. COMPENSATION

The total fee for the Project is **US$600**, payable in three milestone-based instalments, as follows:

Milestone	Share	Amount	Trigger	Status
Milestone 1	45%	$270	Core app built and launched	Paid
Milestone 2	30%	$180	Additional features added	Due on delivery
Milestone 3	25%	$150	Project finished and fully handed over	Due on delivery

Payment shall be made by the Client to the Developer via Western Union, to the Developer's Nigerian Naira commercial bank account, at the Naira/USD exchange rate applicable on the day of transfer. The Client has already paid Milestone 1 ($270) as of the date of this Agreement.

4.1 Payment Conditions: each milestone payment is conditional upon the Developer delivering the agreed features for that milestone. Payment is due within 7 days of the Client receiving and reviewing the delivered milestone, unless a dispute over the deliverable is raised in writing within that period.

4.2 Taxes: each party is responsible for its own applicable taxes arising from payments under this Agreement.

5. REVISIONS & CHANGES TO SCOPE

Minor revisions within the agreed scope of each milestone are included at no extra cost. Any request that materially expands the scope described in Schedule A (new modules, major redesign, features beyond what is listed above) will be treated as a separate, additional milestone with its own agreed price and timeline before work begins.

6. OWNERSHIP & INTELLECTUAL PROPERTY

Upon full and final payment of all three milestones, all code, documents, designs, and other deliverables created for the Project become the sole property of the Client. Until full payment is received, the Developer retains ownership of the work. The Developer may reuse general-purpose code, components, or techniques that are not specific to the Client's business or brand in future projects.

7. CONFIDENTIALITY

Both parties agree to keep confidential any non-public business information, credentials, or data shared for the purposes of this Project, both during the engagement and after its completion or termination.

8. TERMINATION

Either party may terminate this Agreement before completion by giving **7 days' written notice** to the other party.

- The Client shall pay for all milestones already completed and delivered at the time of termination.
- No payment is owed for milestones not yet completed or delivered.
- The Developer shall hand over all work completed to date within 7 days of termination.
- Either party may terminate immediately, without notice, in the event of fraud, non-payment, or breach of confidentiality by the other party.

9. DISPUTE RESOLUTION

Any dispute arising from this Agreement shall first be resolved amicably through direct discussion between the parties. If unresolved, the parties agree to jointly agree on a suitable resolution process (e.g. mediation) before pursuing any other remedy.

10. ENTIRE AGREEMENT

This Agreement, together with Schedule A (the project specification document already shared between the parties), represents the full understanding between the parties regarding the Project and overrides all prior informal discussions. Any amendment must be in writing and signed by both parties.
